## 1 Introduction

---

The Trust has a legal and moral obligation to manage risk from display screen equipment (DSE) use. By following this procedure, the DSE user and responsible persons will ensure that the risk to users is adequately controlled.

This procedure will also apply to any staff that have neurodiverse conditions.

Working with portable DSE i.e., laptops, notebook computers, are also subject to the DSE regulations.

This procedure links to Our Journey to Change as outlined within the Health and Safety Policy.

---

## 2 Purpose

---

Following this procedure will help the Trust to comply with its legal obligations:

- Health and Safety at Work etc. Act 1974
- Management of Health and Safety at Work Regulations 1999
- Display Screen Equipment Regulations 1992 (amended 2002)

---

## 3 Who this procedure applies to

---

This procedure applies to all bank, locum, permanent, fixed term contract employees (including apprentices) who hold a contract of employment or are engaged with the Trust, and seconded (including students), volunteers, non-Executive Directors, Governors, and those undertaking research work within TEWV Trust. It also applies to external contractors, agency workers, including those within the GIG economy, limb workers, those on honorary contracts, those on work experience and other workers who are assigned to TEWV Trust.

---

## 4 Related documents

---

This procedure describes what you need to do to implement duties under the Trust Health and Safety Policy.

This procedure also refers to: -

- ✓ [Risk Assessment \(H&S\) Procedure](#)
- ✓ [Workplace Adjustments Procedure](#)

---

## 5 Procedure

---

Managers need to:

- Ensure that all users follow the 12-point set up plan ([Appendix 2](#)).
- Ensure that all users complete a DSE Risk Assessment ([Appendix 1](#)).
- Review the findings of the DSE Risk Assessment with the staff member.
- Discuss any control measures required for areas of concern and implement them.
- Refer any staff member who has complex musculoskeletal concerns, or neurodiverse conditions to Occupational Health where appropriate.
- Be aware of the Workplace Adjustments Procedure and help available from the Reasonable Adjustments Team at [tevv.reasonableadjustmentsteam@nhs.net](mailto:tevv.reasonableadjustmentsteam@nhs.net)
- Retain DSE Risk Assessments in staff members personal folder.
- Ensure DSE Risk Assessments are reviewed on a regular basis e.g., in light of any changes to workstation, personal circumstances, guidance, legislation, planned reviews at 1:1's/appraisals etc.

DSE Users need to:

- Follow the 12-point set up plan ([Appendix 2](#))
- Complete a DSE Risk Assessment ([Appendix 1](#))
- Discuss DSE Risk Assessments with their Line Manager.
- Ensure DSE Risk Assessments are reviewed on a regular basis e.g., in light of any changes to workstation, personal circumstances, guidance, legislation, planned reviews at 1:1's/appraisals etc.

---

## 5.1 Risk Assessment

---

The Health and Safety (Display Screen Equipment) Regulations apply to workers who use DSE daily, for continuous periods of an hour or more.

DSE Risk Assessments must be undertaken on commencement of post.

These should be completed by DSE Users in all locations including those working from home.

If staff are hybrid working (office/home) or working from home continuously, then an assessment should be done for both the office and working from home.

The Risk Assessment that the Trust uses is the HSE DSE Checklist: [Appendix 1](#)

The 12-point set up plan is available in [Appendix 2](#).

---

## 5.2 DSE Videos

---

There are four helpful DSE videos available for both staff and Managers.

They include information on:

- Looking after yourself at your desk.
- Tips for multi-screen users
- Equipment for common MSK conditions
- DSE use for Managers.

These have been produced by the Trust Occupational Health provider. These videos are available to watch on the T-Drive, file path below:

*T:\Intranet Published Documents\Working here\Health and Safety\Health and safety toolkit\Risk Assessments and templates\Display screen equipment DSE assessments*

There is also a helpful short 12 point set up plan video available on ESR, search [346 Online Display Screen Equipment](#) on the learning portal.

---

## 5.3 Useful Resources

---

There are a number of useful resources via the Trust Occupational Health Provider for DSE and Musculoskeletal (MSK) conditions. Please see the link below.

[Physio Solutions | Physiotherapy & MSK Resources | PAM Physio Solutions](#)

---

## 5.4 DSE Equipment

---

Standard equipment is available to order on Cardea e.g., footrests, standard chairs etc.

Staff members may identify that they require specific equipment that is non-standard issue e.g., lumbar support chairs, wrist rests, ergonomic keyboards, ergonomic mice etc.

The majority of this equipment is available to purchase either on Cardea (e.g., chair, desks, footrest, etc.) or via IT Procurement (e.g., laptop raiser, ergonomic keyboard, ergonomic mice).

However, where equipment is required for complex musculoskeletal concerns, specific conditions, neurodiverse conditions (e.g., dyslexia) please refer to the Workplace Adjustments Procedure for details on how to refer a staff member (if required) to Access to Work for a complex assessment.

You can seek advice and support on the Access to Work process and anything relating to reasonable/workplace adjustments from the Trust's centralised reasonable adjustments team at [tewv.reasonableadjustmentsteam@nhs.net](mailto:tewv.reasonableadjustmentsteam@nhs.net)

If staff members are working from home the same considerations should be applied as to what support they may require.

## 5.5 Eyesight Tests

---

*“The law says employers must arrange an eye test for display screen equipment (DSE) users if they ask for one, and provide glasses if an employee needs them only for DSE use.” HSE website*

Identified DSE users who request an eyesight test through their Line Manager are responsible for arranging their own test with a registered optician.

Reimbursement can be claimed for the cost of the eye test through expenses.

Reimbursement of a contribution of £50 towards glasses (suitable lenses and frame) where required for DSE use only can also be made through expenses.

The Trust is not responsible for any corrections for vision defects, pre-existing eye conditions or examinations for eye complaints which are not related to display screen work. These are the responsibility of the individual concerned.

---

## 5.6 Workplace Adjustments

---

As a Trust we have a duty under the Equality Act to make adjustments to support staff. Many factors will be involved in deciding what adjustments to make and will depend on the individual circumstances.

Information and guidance in relation to workplace adjustments can be found in the Workplace Adjustments Procedure which is available on the Trust intranet.

You can seek advice and support on the Access to Work process and anything relating to reasonable/workplace adjustments from the Trust's centralised reasonable adjustments team at [tewv.reasonableadjustmentsteam@nhs.net](mailto:tewv.reasonableadjustmentsteam@nhs.net)

---

## 5.7 Portable DSE Equipment (e.g., Laptop, PDA's)

---

Portable DSE, such as laptops are subject to the DSE Regulations. These should be covered within a DSE Risk Assessment.

## 6 Definitions

Term	Definition
Display Screen Equipment (DSE)	Desktop/laptop computers, hand held devices etc.
Workstation	The surrounding environment of the DSE, e.g., work surface, desk, chair, accessories etc.
User	The Health and Safety (Display Screen Equipment) Regulations apply to workers who use DSE daily, for continuous periods of an hour or more.

## 7 How this procedure will be implemented

- This procedure will be published on the Trust intranet.
- Line managers will disseminate this procedure to all Trust employees through a line management briefing.

### 7.1 Training needs analysis

Staff/Professional Group	Type of Training	Duration	Frequency of Training
None identified.			

## 8 How the implementation of this procedure will be monitored

Number	Auditable Standard/Key Performance Indicators	Frequency/Method/Person Responsible	Where results and any Associate Action Plan will be reported to, implemented and monitored; (this will usually be via the relevant Governance Group).
1	Compliance with the legal requirements outlined within the Management of Health and Safety at Work Regulations 1999. <i>NB. There are 14 questions listed in the audit template that are assessed for compliance.</i>	<p><b>Frequency:</b> Annual rolling audit programme.</p> <p><b>Method:</b> Risk Assessment audits will be undertaken for a sample of all teams utilising a standard audit template via an internet-based audit platform. Results are collated and discussed at Health, Safety, Security and Fire Group (HSSF GROUP) with a report to be submitted to the appropriate committee.</p> <p><b>Responsible:</b> Undertaken by members of the Health and Safety Team as directed by the Head of Health, Safety and Security.</p>	Implementation and monitoring are directed by the Executive Management Group and devolved to the HSSF Group.

## Appendix 2 – 12-Point Display Screen Equipment (DSE) Set Up Plan

Regardless of whether staff use a laptop or desktop computer, the principles for the safe set up apply to both and the 12-point set up plan should always be followed.

1	<b>Backrest</b>	<ul style="list-style-type: none"> <li>Adjust the chair back angle for comfort and support; this should be fairly upright when typing.</li> <li>Adjust the chair back height to give support to the small of your back.</li> </ul>
2	<b>Seat height</b>	<ul style="list-style-type: none"> <li>Adjust the seat height so that your elbows are just above the desk (shoulders relaxed).</li> <li>Your wrists should be in a relaxed, neutral position over the keyboard.</li> <li>Ensure armrests do not prevent you getting close enough to the desk or obstruct your elbows whilst typing.</li> </ul>
3	<b>Footrest</b>	<ul style="list-style-type: none"> <li>Your thighs should be approximately horizontal.</li> <li>Ensure that there is no undue pressure on your bottom and thighs.</li> <li>If your feet are not flat on the floor, use a footrest to support them.</li> </ul>
4	<b>Keyboard</b>	<ul style="list-style-type: none"> <li>The keyboard should be directly in front of you and at a distance to allow you to maintain relaxed shoulders, elbows at right angles and neutral wrist posture.</li> </ul>
5	<b>Mouse</b>	<ul style="list-style-type: none"> <li>Position your mouse as close to the side of the keyboard as possible.</li> <li>Take your hand away from the mouse when not in use.</li> <li>Use keyboard shortcuts as an alternative to the mouse.</li> </ul>
6	<b>Screen</b>	<ul style="list-style-type: none"> <li>The screen should be at approximately arm's length and at a height to prevent poor posture and excessive movement of the head and neck. This will depend on typing style, software used, glasses worn, and tasks performed.</li> <li>Glare and reflections should be avoided by using blinds.</li> </ul>
7	<b>User position</b>	<ul style="list-style-type: none"> <li>Your body position should be 'squared-up' to the desk.</li> <li>Avoiding twisting. Shoulders should be in line with your knees.</li> </ul>
8	<b>Documents</b>	<ul style="list-style-type: none"> <li>Use a document holder or position documents to reduce head and neck movement, e.g., between the screen and keyboard.</li> </ul>
9	<b>Equipment position</b>	<ul style="list-style-type: none"> <li>Place frequently used items close by.</li> <li>Do not locate printers on your desk or within reaching distance.</li> <li>Don't cradle the phone between your shoulder and chin, use your other hand to hold it or use a headset.</li> </ul>
10	<b>Work routine</b>	<ul style="list-style-type: none"> <li>Organise your work so that you have reason to get up out of your chair and away from your workstation, e.g., collecting documents, filing, making drinks.</li> <li>Adopt a variety of postures throughout the day.</li> </ul>
11	<b>Vision</b>	<ul style="list-style-type: none"> <li>Ensure you are aware of your entitlement of eye and eyesight testing (even if you already wear glasses), ask your line manager for details of local arrangements.</li> </ul>

12	<b>Reporting problems</b>	<ul style="list-style-type: none"> <li>• Inform your line manager if you experience any problems following changes to your workstation or workload.</li> <li>• If you experience any problems whilst using your workstation or have any health and safety related concerns, you should inform your line manager or Occupational Health department as soon as possible.</li> </ul>
